

Workshop on Scientific Advice in Local Co-management – The Wash

When: 10.30-14.30 on 15 May 2007

Where: Conference Room, Eastern Sea Fisheries Joint Committee, King's Lynn

Best practices in provision of scientific advice at the local level

1. Presentation of *Review of the Role of Science in Cooperative Fisheries Management* – a report from the first phase of the SAFMAMS project
2. Sharing experiences (joint discussion)
 - a. What has worked well in terms of science supporting local co-management of the Wash fisheries and nature conservation objectives?
 - b. Why did it work well?
3. Identifying goals (group discussions)
 - a. What would be the ideal setup for science to support local co-management?
 - b. What is needed in order to better conduct scientific studies and communicate scientific advice in support of local co-management?
4. Concluding remarks
